Hanseatic India Forum e.V.  
IBAN: DE85 2008 0000 0949 7262 00  
Commerzbank AG

#### **Purpose:**

Summer party 2025, name of customer, number of people

Hanseatic India Forum e.V. is a non-profit organisation which has been dedicated to promoting international understanding since its foundation in 2009, especially between people in Germany - especially Hamburg - and India, tolerance in all areas of cultural and international understanding and the promotion of development aid projects.

We also focus on sharing the rich art and culture of India with our friends in Germany, as we firmly believe that art and culture are a viable bridge for encounters between peoples of two nations.

With this in mind, this year we are organising a summer party 'Summer in the City: Hamburg meets India - a cultural Event', as part of the India Week Hamburg 2025, to which we cordially invite all Indians living in Hamburg and the surrounding area, all friends of India and its culture as well as our association members.

You can expect a varied and entertaining programme with Indian artists whose musical and dance performances will introduce you to an important part of Indian culture and celebrate the beauty and pleasure of summertime in the city.

We would particularly like to draw your attention to the performances of the **Samvedan group** of artists, led by Deodatt Persaud. The repertoire will be a mix of incantations, expressive thumris, energetic taranas and intricate technical sequences, giving the audience a vivid insight into the richness of Kathak.

Pubali Mukherjee, a moderator known to all members and friends of our association, who has already moderated many events with her professionalism and warmth of heart, will lead through the programme.

There will be a break of one hour during which we will be offering a variety of Indian delicacies for sale.

At the venue, there will be the opportunity to have your hand artistically decorated by our henna artist Preet (examples on Instagram: @ mehndiinamburg)

All news, changes and the detailed programme can be found on our website [www.hif-hamburg.de](http://www.hif-hamburg.de) and [www.facebook.com/HIF](https://www.facebook.com/HIF).
